- October 13, 2016

II. OLD BUSINESS:

Pages 31 - 80
of PACKET

- 32-16 Alan A. Shuch, Trustee of the Ann F. Shuch Qualified Personal Residence Trust Alger
Action deadline January 11, 2017 45 Quidnet Road *Sitting Members:* ET SM MJO KK GT
Applicant is seeking Special Permit relief under By-law Section 139-33.A(1)(a) to extend, alter, or change a pre-existing, non-conforming ancillary structure used as a studio and beach changing area by raising it up above the flood plain so that it no longer floods and adding stairs necessary for access. To the extent necessary, Applicant also seeks a modification of the Board's decision in File No. 007-96 to allow for such work. The Locus is situated at 45 Quidnet Road, is shown on Assessor's Map 21 as Parcel 21, and is Lot 23 on Land Court Plan 8853-L. Owner's title is evidenced by Certificate of Title No. 21927 at the Nantucket Registry District. The site is zoned Residential-20 (R20).

FROM PRIOR STAFF REPORT:

The proposal consists of vertical extension of about 3± feet of a structure which is sited as close as 2.7 feet from the easterly side yard lot line. The structure, used for recreational purposes pursuant to prior ZBA approval (SEE PAGES 46 - 52 OF PACKET), is on the beach of Sesachacha Pond and has sustained flood damage in recent years. This went before the HDC and was granted a COA on September 20th. The project consists of lifting this said to be historic accessory structure to place it on a foundation which will protect it from further flood damage. In addition, a set of stairs will be built to access the newly elevated structure. There will be no increase in footprint. The applicant submitted substantial supplementary materials, including photos (SEE PAGES 53 – 64 OF YOUR PACKET). In addition, several abutters submitted comments and concerns (SEE PAGES 69 – 80).

UPDATE:

This was opened at the October 13th hearing. Attorney for the applicant explained that the structure is located below the bank and the level of Sesachacha Pond has been consistently rising, resulting in water rising up to the floor joists and impacting the underside. In recent years, the DPW has added large stones along the pond due to a noticeable increase in water level. Elevation 9 runs along the edge of the pond and includes the Locus, which abuts a zone that requires elevation 10. The applicant proposes to raise it 3 feet – to elevation 10 in order to be entirely out of the flood zone – where it will still be below the top of the bank.

They cannot move it to the west to get out of the setback, because there is a heavily vegetated bank. Therefore, they would only be able to move it closer to the water which would not be allowed by ConCom. They propose to lift it up and build up existing block and piers, without demolishing the existing foundation. All materials will be hand-carried down the stairs and work will be done on the beach. No change of use and no interior changes are proposed and the ground cover will remain unchanged.

The owner, who spoke at the hearing, told the Board that he has owned the property since August 1993. He stated that the studio, which isn't visible from any of homes above the bay, will not be visible above the bank once it's raised 3 feet. According to the owner, the studio predates many of the homes along Sesachacha Road, many of which have undergone expansion.

At the time of the hearing, the application was pending before ConCom. After hearing testimony from an abutter's representative and the applicant's representatives, the Board members maintained that they would be willing to support the application, but proposed a continuance to have an opportunity to hear what ConCom's determination would be in order to avert applicant having to return to ZBA because of something ConCom could put in their decision. The Board members also expressed some concerns regarding the pump tank, as the gravity sewer line goes out of the cottage into the pump chamber a few feet below the bathroom level. They urged applicant to explore other options for the bathroom and contingencies for the pump system.

2

- 014-99 & 021-22 Dennis E. Dias and Suzanne Gale 2 Tripp Drive Williams
ET & MJO sat on 2002 decision

Pages 10 - 30
of PACKET

Applicant is seeking to rescind and vacate previous Variance decisions no longer required by virtue of a recent change in zoning from LUG-2 to LUG-1 resulting from passage of Article 15 at the 2016 Special Town Meeting which rendered the Locus conforming as to lot size. The Locus is situated at 2 Tripp Drive, is shown on Assessor's Map 80 as Parcel 51.3, as Lot 1 upon Land Court Plan 37096-B. Evidence of owner's title is registered on Certificate of Title No. 26171 at the Nantucket County District of the Land Court. The site is zoned Limited Use General 1 (LUG-1).

Applicant requests full rescission of prior decisions. The original decision was issued in 1999, extended in 2000, and restated in 2002 due to lack of a duly issued building permit. The Variance relief granted essentially validated the lot as separately marketable and buildable from all adjacent property and restricted it to 1 dwelling unit and vehicular access only off of Tripp Drive. The lot came out of a multi-lot family owned development and was granted to Dennis Dias in 1999 as an intra-family gift. However, this vacant undersized lot (44,476 SF in LUG-2) was held in common ownership after 1972 by that relative. Pursuant to the merger doctrine, the subject lot merged with the adjacent lot. All of the other lots contained in the subdivision were created having a minimum and conforming lot size of 80,000 SF.

See also
Pages 1 - 8 at end
of Staff Report

The lot was rezoned from LUG-2 to LUG-1 and is now conforming as to lot size by virtue of passage by majority vote of Article 15 at Special Town Meeting on October 17, 2016, rendering the need for relief obsolete and unnecessary. (SEE SUPPLEMENT PAGES 1 - 8 AT END OF STAFF REPORT)

III. NEW BUSINESS:

Page 82

- 24-16 6 Lily Street LLC & Sconset Partners LLC 6 and 8 Lily Street Dale
CONTINUED TO January 12, 2016 *CONFLICTS: ET*

**Pages 83 - 95
of PACKET**

- 36-16 Loren H. Kroll and Norma J. Goldman 24 Coffin St. Beaudette
 Action deadline February 8, 2017 CONFLICTS: NONE KNOWN
 Applicant is requesting Special Permit relief pursuant Zoning By-law Sections 139-30.A and 139-16.C(2) to validate an unintentional side yard setback intrusion caused by the siting of a porch 9.5 feet from the side yard lot line abutting West Sankaty Street, where a ten (10) foot setback is required pursuant to Section 139-16.C(3). In the alternative, and to the extent necessary, Applicant requests relief by Variance pursuant to Section 139-32 to allow said setback intrusion. The Locus is situated at 24 Coffin Street, is shown on Assessor's Map 73.4.1 as Parcel 52, as Lot 2 upon Plan No. 2012-37. Evidence of owner's title is in Book 1456, Page 168 on file at the Nantucket County Registry of Deeds. The site is zoned Sconset Residential 1 (SR-1).

The Applicant seeks Special Permit relief pursuant to Bylaw Section 139-16.C(2) which reads:

The Board of Appeals may grant a special permit to validate unintentional setback intrusions not greater than five feet into a required yard and not closer than four feet from a lot line, provided that it shall first find that the burden of correcting the intrusion substantially outweighs any benefit to an abutter of eliminating the intrusion and, if the intruding structure was so sited after 1990, the siting of the structure was reasonably based upon a licensed survey.

Per the 2016 Final As-Built Plan (SEE PAGE 93 OF THE PACKET), the dwelling porch is sited 9.5' from the easterly lot line abutting West Sankaty Avenue where 5 foot setbacks are normally required except pursuant to Section 139-16.C(3) which requires that a lot zoned SR-1 abutting two or more streets or ways must maintain a ten (10) foot setback from each street or way.

The *de minimis* intrusion is said to have been "unintentionally created by a contractor, who misjudged the distance from the lot line to the porch".

3

**Pages 96 - 107
of PACKET**

- 37-16 CHC Development, LLC 7 Primrose Avenue Cohen
 Action deadline February 8, 2017 CONFLICTS: NONE KNOWN
 Appellant brings an appeal pursuant to Nantucket Zoning Bylaw Sections 139-29 and 139-31 of the decisions of the Building Inspector to 1) deny a request to amend a building permit, and 2) revoke said permit. Specifically, Applicant requests that the Zoning Board of Appeals overturn the decisions of the Building Inspector by making a determination that the unenclosed roofed over area of a pool cabana is a porch or gazebo, and, therefore does not count towards ground cover. To the extent necessary, and in the alternative, Applicant seeks Variance relief pursuant to Section 139-32 from the definition of ground cover pursuant to 139-2.A and/or ground cover requirements pursuant to 139-16. The Locus is situated at 7 Primrose Avenue, is shown on Assessor's Map 40 as Parcel 65, as Lot 6 upon Land Court Plan 40657-A. Evidence of owner's title is registered on Certificate of Title No. 25497 at the Nantucket County District of the Land Court. The site is zoned Limited Use General 2 (LUG-2).

Appellant requests that the Board overturn the Building Commissioner's ruling denying an amendment to a Building Permit and thereby revoking said permit. (SEE LETTER ON PAGE 100 OF PACKET.)

The Commissioner asserts that the subject structure is one structure for zoning and building code purposes and, as such, the entire structure with a 360 SF footprint should count towards ground cover. This finding puts the overall ground cover of the locus in excess of the allowed 4% GCR. See TABLE below:

Structure	Bldg Permit #	Ground Cover per As-Built*	GC per Bldg. Comm Ltr.
Primary DU	1338-15	2,103± SF	2,098 SF
Secondary DU	1602-15	1,064± SF	1,065 SF
Storage Shed/Pool Cabana	405-16	191± SF	360 SF
TOTAL GC =		3,358± SF or 3.94%	3,523 SF or 4.13%
Maximum GCR = 4% of 85,268 SF_{lot area}		→ Max. GC = 3,410.7 SF	

*As shown on the As-Built, dated 9/15/16, (SEE PAGE 103 OF PACKET):

See also
Pages 9 - 19 at end
of Staff Report

Staff examined the Building Department file and has included some of these documents at the end of this report (SEE SUPPLEMENT PAGES 9-19 AT END OF STAFF REPORT). The subject structure is called a 192 SF “storage shed” on Building Permit Application 405-16, filed 2/23/2016, and called a “Pool Cabana” in the “Amendment clarification” filed on 8/15/2016. It is called a “Pool House” on COA No. 64242 and a “Pool Cabana” on revision thereof at COA No. 66400. On the above-referenced As-Built, it is shown as “Pool Structure” & “Porch”. Appellant states that the portion of the structure which is open on its sides should be considered to constitute an unenclosed “porch or gazebo” and, accordingly, under the definition of “Ground Cover”, be excluded from the calculation towards Ground Cover Ratio.

The definition of Ground Cover pursuant to Section 139-2.A is:

The horizontal area of a lot covered at grade by structures, together with those portions of any overhangs which contain enclosed interior space; EXCLUDING tents, retaining walls, substantially below grade finished or unfinished space, decks and unenclosed porches not over or under an enclosed interior space, gazebos, platforms and steps, game playing courts at grade, exterior in-ground residential swimming pools, chimneys, bulkheads, bay and bow windows, unenclosed breezeways, air conditioning units, fuel tanks, roof eaves, trash bins, and not more than one accessory detached shed covering an area not to exceed more than 200 square feet at grade.*

***BREEZEWAY**

An abovegrade structure connecting two buildings. When used to connect a primary dwelling and secondary dwelling, any such breezeway shall be a minimum length of 10 feet. Sub-grade connections of any structures on a lot shall not be regulated by this chapter.

Staff notes that open porches and/or gazebos do not have any kind of maximum size allowance. A single shed is exempted up to 200 SF. No such restriction applies to open porches or gazebos. SEE PAGES 104-105 OF PACKET for photos of the subject structure.

- 38-16 Edmund M. Carpenter, Jr. and Patricia F. Carpenter Gifford/Reade
Action deadline February 8, 2017 17 Columbus Avenue **CONFLICTS: NONE KNOWN**
Applicant is seeking relief by Special Permit pursuant to Zoning By-law Section 139-33.A in order to alter and expand the pre-existing nonconforming dwelling. Specifically, Applicant proposes to build an addition to the west and south of the dwelling. As so altered and expanded, the dwelling will be no closer to the northwesterly front yard lot line than the existing dwelling which encroaches into the minimum front yard setback of twenty (20) feet. The Locus is situated at 17 Columbus Avenue, is shown on Assessor’s Map 59.3 as Parcel 108, as Lot 604 upon Land Court Plan 3092-48. Evidence of owner’s title is registered on Certificate of Title No. 23848 at the Nantucket County District of the Land Court. The site is zoned Village Residential (VR).

Pages 108 - 124
of PACKET

The Applicant proposes to expand the pre-existing nonconforming dwelling by constructing a single story addition surrounded by an unenclosed deck on the south elevation, all in accordance with Certificate of Appropriateness No. 66840 issued by the HDC on November 1st. A portion of the 560 square foot addition the applicant proposes to construct will be sited within the front yard setback, as close as 13.5’ from the front yard lot line abutting Columbus Avenue, but will be no closer than the existing structure. Therefore, the structure, as so altered and expanded, shall be no closer to the front yard lot line than the existing structure. The dwelling, which currently contains approximately 782 square feet for an overall existing ground cover ratio of 2% where 10% GCR is allowed, will have a GCR of approximately 3.4% as a result of the expansion. The applicant originally proposed a deck on the south and west elevations. Subsequent to HDC proceedings, the deck has been downsized and will only be on the less visible south elevation. The Locus, as existing and as proposed, is conforming as to use, parking, and all dimensional requirements of the By-law, except front yard setback, being sited as close as 12.8’ from Columbus Avenue where a twenty (20) foot front yard setback is required, and perhaps height (T/B/D).

The Locus is also located in the Village Height Overlay District (“VHOD”) pursuant to By-law Section 139-4(F). Pursuant to Section 139-12.K(1), the maximum height permitted within the VHOD is twenty-five (25) feet. Pursuant to Section 139-12.K(2), the height limitation under Section 139-12.K(1) became effective January 31, 2010. The existing structure on the Locus was constructed pursuant to a building permit issued in 1974, with a Certificate of Occupancy issuing in 1997. The highest point on the dwelling is shown as approximately 28’1” on plans submitted to the HDC (SEE PAGE 122 OF PACKET). If the average mean grade height prior to the project can be shown to have exceeded 25 feet, the existing structure on the Locus would be a validly pre-existing, nonconforming structure as to height. Staff was unable to obtain a precise figure for the existing or proposed height per definitions & provisions in the By-Law cited below.

Pursuant to Section 139-17.A:

*Building and structure height is measured as the average height of all sides of a building or structure from the **average mean grade*** to the highest point of the building and/or structure. There shall be only one highest point for each building and/or structure. No one building and/or structure side shall exceed 32 feet**.*

*Pursuant to Section 139-2.A:

- (1) *Average mean grade shall be the average of the mean grade established along the median grade line. There shall be only one average mean grade for each continuous median grade line.*
- (2) *Where a side does not have continuous existing and/or finish grade lines, caused by retaining walls or horizontal breaks created by setbacks or protrusions, the average mean grade shall be the average of separately calculated average mean grades for each separate continuous median grade line and shall be proportional to the horizontal length of each continuous median grade line.*

**Pursuant to Section 139-12.K describing the VILLAGE HEIGHT OVERLAY DISTRICT:

The purpose of this overlay district is to establish reduced building heights in certain locations in the Country Overlay District.

- (1) *Notwithstanding the provisions of Section 139-17, the maximum height permitted within the Village Height Overlay District shall be 25 feet.*

2016 SPECIAL TOWN MEETING 2016

The following is a summary of the articles called and discussed, and the vote taken by the 2016 Special Town Meeting held at the Nantucket High School, Mary P. Walker Auditorium, 10 Surfside Road, on October 17, 2016. Cyrus Peirce student Robert Planzer was the official Time Keeper.

Voters were given Green armbands, and non-voters and consultants were given Blue-and-white armbands. Non-voters were admitted to the Auditorium anteroom, and the proceedings were graciously live-streamed by Channel 18.

On Monday, October 17, we convened at 6:08 PM. There were 543 voters in attendance. At the close of registration on October 7, 2016, we had 8996 registered voters. **There was a Quorum Requirement of either 450 or 270 on the following articles: Article #'s 2, 7, 8, 10, 11. A Quorum in excess of 450 was achieved at 6:07 PM.**

Non-voting consultants admitted to the hall were Andy Burnes from Hall-Keen; Rosemary Blackmier from Woodward & Curran.

On October 17, 2016, at 6:16 PM, the following "Pot of Uncalled Articles" was voted unanimously **in accordance with the motions** recommended by the Finance Committee or, **in the absence of a Finance Committee motion, then in accordance with the motions** as recommended by the Planning Board, as printed in the Finance Committee Report, with technical amendments brought forward during the course of the meeting: **Articles 4, 6, 7, 8, 9, 10, 12, 13**

At 8:56 PM, on Monday, October 17, Moderator Alger recognized James Kelly, Chair of the Board of Selectmen, who moved to dissolve the 2016 Special Town Meeting. The motion was seconded, and adopted by Unanimous Voice Vote.

HIGHLIGHTING KEY:

NONE = Adopted

YELLOW = Adopted with Amendment/Technical Amendment

RED = NOT adopted

GREEN = Attorney General Approval Needed

Article 1: Suspension of Madaket/Warren's Landing/Somerset Sewer Extension Request (Called) Not Adopted by Handcount Vote: YES – 191; NO - 319

SITE PLAN NOTES

1. Contractor shall confine work area to create minimum site disturbance.
2. Finish grade shall slope a minimum of 1/2" per foot from the foundation wall for a distance of six feet from the face of the structure.
3. Existing topsoil removed during excavation shall be stored on site (if possible) and reused to repair site after construction. Topsoil removed from the site shall be replaced in equal volume at no additional costs beyond transportation and storage of materials.
4. Erosion control measures shall be used where required and as necessary to prevent damage or alteration to surrounding property.
5. A registered surveyor shall be required to set all foundation corners, elevations, and dimensions and verify compliance with property lines, setbacks, easements, and other zoning regulations.
6. Contractor shall install measures including screening and fencing to protect existing trees on site from damage during course of construction. No existing trees shall be cut or disturbed without the authorization of the owner.
7. Owner shall have the option to approve site placement at time of staking. Contact owner and Chip Webster Architecture prior to excavation

Window Specifications
 Interior Finish: Primed
 Hardware: By Owner
 Masonry Type: Struck Divided Lites (SDL)
 Screens: Full screen, high transparency mesh
 Glass: Dual pane, insulated, low-E glass
 Impact Protection: Structural plywood panels cut to fit each assembly labeled and stored on site with associated hardware and scheduled for installation when necessary.

- Window and Door Notes**
- Window & door manufacturers, sizes and hardware shall be specified in door and window schedule. All exterior placed openings to comply with IRC2009 R504/MA amendments and ICC2009 as applicable.
 - Refer to window and door schedule for windows details protection.
 - All dimensions shown for window/door elevations are rough opening dimensions and should be verified by the contractor with the latest manufacturer's specifications.
 - Deliver all units complete with glazing, insect screens, weatherstripping, and hardware.
 - Glazing in historically appropriate products and applications shall be SDL with individual lites set into the sash and muntins and sealed with putty. This assembly is used by each manufacturer.
 - Glazing in contemporary products and applications, when specified, shall have fixed muntin and exterior muntin with spacer bar. This assembly is referred to as Simulated Divided Lite or SDL, and should be verified against the terminology used by each manufacturer.
 - All windows shall have performance ratings clearly displayed on each unit for inspection.
 - Properly remove all manufacturer's stickers from windows after inspection by code official.
 - Locate rough opening head heights of windows so that final interior and exterior casings align with casings of adjacent exterior doors, unless noted otherwise.
 - Glazed SDL windows shall have a dust pocket that result in an exterior casing of 5-1/2" wide unless noted otherwise.
 - Glazed contemporary windows shall have a single dust pocket unless otherwise noted.
 - Contractor shall compare all quantities, operations and specifications provided by the manufacturer against the drawings and review with CVA prior to finalizing order.

ABUTTER LETTER

SUBMITTED *RE.*

FILE No. 38-16

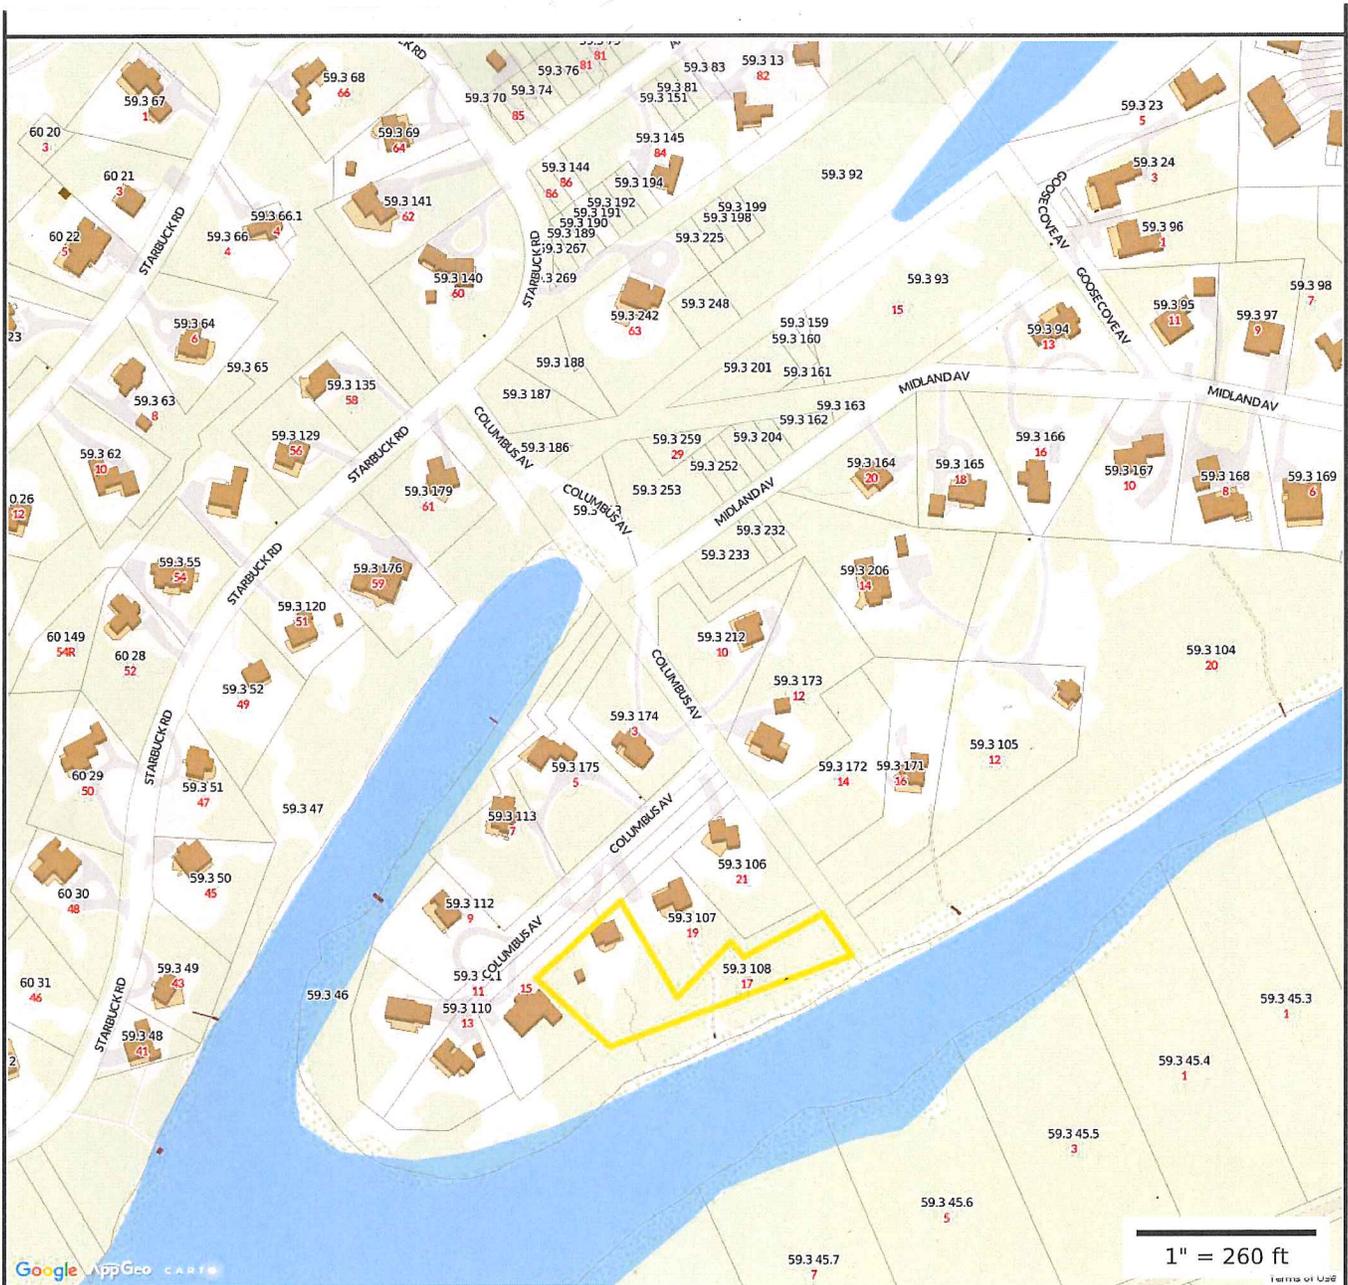

17 COLUMBUS Av.

Eleanor Antonietti

From: Louis Greco [louisgreco9495@gmail.com]

Subject: File No. 38-16

To whom it may concern,

My wife and I own property at 12 Columbus Ave. Our concern with the addition proposed for 17 Columbus Ave. is that the dwelling is already too close to the west property line. Columbus Ave is actually property owned by # 9 & 11 Columbus Ave. (see map below). If the proposed addition is being built behind the existing dwelling(south and east), then we have no objection. If, however, the addition is being built closer to the existing Columbus Ave., we advise against it due to the fact that it will be on property owned by #15 Columbus Ave and will also obstruct our view of the ocean. Also, I hope any addition to this property will remain under the 25' height limit.
