

Streets and Sidewalk Advisory Committee
Meeting 8/23/12 4pm
Committee met at Corner of Centre and Broad Street

Present: Kara Buzanoski, Allen Reinhart, Peter Louderback, Harvey Young,

Hussey St:

Repave the length of the street. Do full depth reconstruction.
The garage at the Pineapple Inn is low and collects water.

The 11 Hussey St sidewalk is depressed.

The tree at 15 Hussey protrudes into the street.

The sidewalk is down at #18.

Water is running down from Westminster, accumulating sand at the intersection.

Sand is also accumulating at #23.

India Street:

At #39 the sidewalk has sunk due to traffic running over the curb onto the sidewalk.

At #33 the sidewalk has sunk due to traffic running over the curb onto the sidewalk.

Also at #31 the sidewalk has sunk.

At #23 India the sidewalk has sunk.

Keep curbs low because trucks use this street.

At #15 the sidewalk has sunk.

Trucks running over the sidewalk have rutted the bricks.

There is soft pavement next to catch basin on India.

The tree is protruding into the street in front of DeMarco's.

Sand is accumulating in front of Athenaeum.

South Water:

Sewer goes down the middle of the street how do we accommodate trucks?

Chestnut Street:

The Belgian block is in good condition, can we do pipe bursting?
