Historic District Commission

Dear Members:

Thank you for your service to our community. I am grateful for your work in protecting our island resources.

I am writing to express some concern regarding the project at 59 S. Shore Rd. I understand some of our neighbors received notification from the HDC regarding plans of the new owner of the property, including to develop a residential "activity barn" and 14 designated parking spaces. This seems to be an unusual amount of parking spaces for a residential lot in LUG2; can you help me understand if this is customary, and if you have any information on why that many spaces would be needed for residential purposes? Are commercial activities such as events permitted on this lot?

Best regards,
