Hi Holly,

I am in strong support of Sam's suggestion. The garden house is a valuable piece of Sconset history.

Gully location, so that she could build a house for herself in its place on Front Street, now called "Front & Center". Wade used the garden house as some sort of study/office, I believe. It would be a shame to demolish this old garden house. At the very least, it should be moved off and saved. I've seen photos of the garden house when it sat on Front Street, but I can't remember where I saw them.
