Motion	Motion to Approve through staff per SAC comments. (Camp)			
Vote	Carried 5-0	Certificate #	71816	

V. NEW BUSINESS

<u>Property owner name</u>	<u>Street Address</u>	<u>Scope of work</u>	<u>Map-Parcel</u>	<u>Agent</u>
1. Pennel, Sharon	5 Nobska Way	Addition	66-26	NAG
Voting	Coombs, McLaughlin, Camp, Welch, Dutra			
Alternates	Watterson			
Recused	None			
Documentation	Architectural elevation plans, site plan, and photos.			
Representing	Steve Theroux , Nantucket Architectural Group, LTD – His client requested this be held.			
Public	None			
Concerns (4:40)	Not opened			
Motion	Motion to Hold at applicant's request. (Welch)			
Vote	Carried 5-0	Certificate #		

2.	Meerbergen, Brook	9 Lewis Court	Studio	67-35	Self
Voting	Coombs, McLaughlin, Camp, Watterson, Dutra				
Alternates	None				
Recused	Welch				
Documentation	Architectural elevation plans, site plan, and photos.				
Representing	Brook Meerbergen – Presented project; it should not be very visible. Windows, paint scheme, and doors match the main house.				
Public	Stephen Welch , 13 Waydale Lane – Suggests the architecture is appropriate for the area; anything that is visible will be attractive.				
Concerns (4:41)	Dutra – Confirmed windows match existing. No concerns. Watterson – Appropriate; no concerns. Camp – No objections. McLaughlin – Southwest elevation, the door should be changed.				
Motion	Motion to Approve. (Camp)				
Vote	Carried unanimously		Certificate #	71817	
3.	Nant. Land Bank	23 Tennessee Avenue	Rev. 68005: move windows	60.1.2-26&57	B. Meerbergen
Voting	Coombs, McLaughlin, Camp, Welch, Watterson				
Alternates	Dutra				
Recused	None				
Documentation	Architectural elevation plans, site plan, and photos.				
Representing	Brook Meerbergen – Presented project; vertical board is more in keeping with what is existing.				
Public	None				
Concerns (4:48)	Camp – Asked if the garage door is supposed to look like board and batten and if they have hinges. (cedar overhead) Suggested horizontal board would be better for an overhead door. That the garage door is off center is odd. Watterson – No concerns. McLaughlin – The windows are tall for the wall. Welch – No comments.				
Motion	Motion to Approve as submitted. (McLaughlin)				
Vote	Carried 5-0		Certificate #	71818	
4.	Seidner, Marc	15 Wood Hollow Road	Pool house	72-24	CWA
Voting	Coombs, McLaughlin, Camp, Welch, Dutra				
Alternates	Watterson				
Recused	None				
Documentation	Architectural elevation plans, site plan, and photos.				
Representing	Chip Webster , Chip Webster Associates – Presented project. An existing structure is being moved off.				
Public	None				
Concerns (4:53)	Camp – This is a second dwelling, not a pool house. She'd like to see the height reduced at least one foot. No concerns with the cupola. South elevation, would like to see the nano-walls reduced by two. Dutra – It looks nice. You might be able to take height out of the first floor. McLaughlin – The cupola is inappropriate; this isn't a farmhouse or a barn. The bi-fold doors make the south elevation over fenestrated and might be visible from Wood Hollow; the driveway is a public way since it's part of a subdivision. He would like to view. Staff – This lot was not subdivided, and the driveway is not available for public access. Welch – He's concerned with this being a secondary dwelling/structure on a hill. South elevation if the roof planes of the two forward gables were lowered to create rimboard headers, this would create a sense of secondary massing; suggested bringing the height down to 24 feet the first-floor ceiling is very high; that would also lower the cupola. Coombs – Agrees with lowering the height. The little windows should be removed from the 2 nd floor; there should be gaps between the mulled gable windows to better fill the wall.				
Motion	Motion to Hold for revisions. (McLaughlin)				
Vote	Carried 5-0		Certificate #		

5.	Schwabe, Arthur	8 Caroline Way	Shed move on site	82-27	Jardins Intl
Voting	Coombs, McLaughlin, Camp, Watterson, Dutra				
Alternates	Welch				
Recused	None				
Documentation	Architectural elevation plans, site plan, and photos.				
Representing	Elizabeth O'Rourke , Jardins International – Presented project.				
Public	None				
Concerns (5:10)	<p>Camp – She wants to hear about the landscaping; it might render this not visible.</p> <p>Dutra – No concerns.</p> <p>Watterson – No concerns</p> <p>McLaughlin – No concerns.</p>				
Motion	Motion to Approve. (Watterson)				
Vote	Carried 5-0		Certificate #	71819	
6.	Schwabe, Arthur	8 Caroline Way	Hardscape: patio, drive & walk	82-27	Jardins Intl
Voting	Coombs, McLaughlin, Camp, Watterson, Dutra				
Alternates	Welch				
Recused	None				
Documentation	Landscape design plans, site plan, and photos.				
Representing	Elizabeth O'Rourke , Jardins International – Presented project.				
Public	None				
Concerns (5:12)	<p>Camp – Would like the view from Caroline Way to be mitigated with more plants. Suggested softening the corners of the parking area. The pavers are large, but the patio is not that large and in the rear.</p> <p>Dutra – This is very minimal; no concerns. Reviewed the materials proposed for Mr. McLaughlin's benefit.</p> <p>Watterson – No concerns but agrees about extra plantings along the road.</p> <p>McLaughlin – Asked Mr. Dutra about the appropriateness of the proposed materials.</p> <p>Coombs – The fence should be reduced 4-foot high and be vertical. Asked if the Bluemist granite on the back is pavers. (yes) Agrees about softening the corners on the parking lot.</p>				
Motion	Motion to Approve through staff with the parking area edges softened using more screening. (Camp)				
Vote	Carried 5-0		Certificate #	71820	
7.	Rich, Regina & George	25C Pine Street	A/C Unit	42.3.2-48.1	R.Weinman
Voting	Coombs, McLaughlin, Camp, Welch, Watterson				
Alternates	Dutra				
Recused	None				
Documentation	Architectural elevation plans, site plan, photos, and advisory board comments.				
Representing	Rhoda Weinman , attorney for the Richs – Presented project.				
Public	None				
Concerns (5:24)	<p>Coombs – Read HSAB comments: North elevation, as-built fee should be assessed; should look like a leader; east elevation, shouldn't be at front of house; south elevation, what is going on with permit? We need a drawing of the elevation showing the line set going up the house to the gable. We should have a better photo of that elevation and a drawing of how it would be fixed.</p> <p>Camp – Boxing it in with natural to weather would be okay; suggested it be joined into the corners to look like part of the gutter system. We had a similar issue with a house on Lily Street; they put it up into the fascia so it was less obtrusive. The photo doesn't show the whole wall. With the information at hand, it would be hard to suggest a solution.</p> <p>Welch – He viewed it and it can be addressed within the guidelines. Making it look like a leader in a natural to weather cedar box is a recommendation in the guidelines but being on the front is specifically out of the question in the old historic district (OHD). For an existing condition, the guidelines allow it to be in a natural cedar enclosure on three sides attached to the building with shingles abutting up to it; it should not stand off as a leader would but be attached directly to the sheathing. His suggestion, given the as-built condition, is that it would be acceptable within an enclosure. Also, there was an attempt to enclose the air-conditioning units (A/C) with diamond-pattern lattice with metal post; those should be behind a taller, more substantial lattice or panel so they are not visible.</p> <p>McLaughlin – The photos are not adequate. Thinks the guideline for these in the OHD is that they should be as close to the corner as possible.</p> <p>Discussion about whether or not to impose an as-built fee. Consensus feels it is not necessary here.</p>				
Motion	Motion to Approve through staff with a white, 42-inch, Type-II picket fence surrounding the condenser on the front and right and to hide the lower line set; the line set to be enclosed on three sides in natural-to-weather cedar from the bottom of the shingles to above the vertical termination of the line set. (Camp)				
Vote	Carried 5-0		Certificate #	71821	

8. Sayer, John	10 Gardner Street	A/C unit	42.3.3-13	R. Weinman
Voting	Coombs, McLaughlin, Camp, Welch, Watterson			
Alternates	Dutra			
Recused	None			
Documentation	Architectural elevation plans, site plan, photos, and advisory board comments.			
Representing	Rhoda Weinman , attorney for Mr. Sayer – Presented project.			
Public	None			
Concerns (5:43)	Coombs – Read HSAB comments: should be fined as-built; should be on the hind corner. Welch – The A/C should have evergreen or fence to screen it. The A/C should not be visible at the time of inspection and thereafter. A 42-inch, Type II fence would address that. A natural to weather vertical enclosure for the line set. Part of the approval should include that if the system is to be worked on, the A/C and line set should be moved under a separate application.			
Motion	Motion to Approve through staff with a 42-inch, Type-II picket surrounding the condenser on the front, back, and side and to hide the lower line set; the line set to be enclosed on three sides in natural-to-weather cedar from the bottom of the shingles to above the vertical termination of the line set; if the system is to be worked on anytime hereafter, the A/C a should be relocated under a new application. (Welch)			
Vote	Carried 5-0	Certificate #	71822	
9. Ainslie Lee Trustee	9 Howard Street	Relocate HVAC	42.3.3-54	Mike Freedman
Voting	Coombs, McLaughlin, Camp, Welch, Watterson			
Alternates	Dutra			
Recused	None			
Documentation	Architectural elevation plans, site plan, photos, and advisory board comments.			
Representing	Mike Freedman – Presented project.			
Public	None			
Concerns (5:51)	Coombs – Read HSAB comments: need to go up adjacent to corner to look like boxed leader. Not having the outside of an historic house in the OHD look like this is important. The three condensers need to be screened and we need architectural drawings. Welch – This is the same situation as the previous two. Asked if they could run these up an interior wall. (no) The one on the left could be enclosed with the standard solution. The one on the right is the problem. From Howard Street, this yard is screened by evergreens. Suggested another view to come up with some solution. He'd like to know when the east elevation door work was approved and done. Camp – We have no full elevation photos. Suggested Mr. Freedman come back with options. She'd like to view this. McLaughlin – The side door used to be on the front; about 20 years ago, it was moved to the side. This is highly visible. Asked that A/C and line sets be on the agenda for discussion of a policy.			
Motion	Motion to View and hold for more information and revisions. (Camp)			
Vote	Carried 5-0	Certificate #		
10. Smith, Michael	12 Austin Farm Drive	Window alteration	56-369	SCI
Voting	Coombs, McLaughlin, Camp, Welch, Dutra

30. Sultanov, Dobromir	24 Hummock Pond Road	Outdr shwr/steps/skylight	56-84.2	JB Studios
Voting	Coombs, McLaughlin, Camp, Welch, Dutra			
Alternates	Watterson			
Recused	None			
Documentation	Architectural elevation plans, site plan, photos, and <i>Building with Nantucket in Mind</i> .			
Representing	Dobromir Sultanov , owner – Presented project, circa 1994. There is a skylight on the front of a house on Hummock Pond Road.			
Public	Linda Williams , 6 South Pasture Road – In her 20-years on HDC, the Board never approved skylights on the front of any structure. Town Counsel ruled that a single incident doesn't establish precedent.			
Concerns (7:21)	<p>Camp – The skylight will be visible from the street and not appropriate on the front; it should go on the back.</p> <p>Dutra – Agrees with Ms. Camp. An option is to approve this without the skylight at this time.</p> <p>Welch – The guidelines state that skylights are not approvable on the front roof plane in the OHD, and on side or rear elevations or low visibility or locations visible from public way they should be in the upper 1/3 of the roof plane. If this were to move forward the skylight should be smaller in width, centered over the front door, boxed in wood frame with three-lite slats/muntins. Applicant states his neighbor has a skylight, it's incumbent on the applicant to prove the other was approved; if so, he'd like to see the HDC approval. He has seen skylights with wood frame on the front of structures in the OHD, though they certainly are not prevalent. Urged Mr. Sultanov to not come back with a revision without information on the other skylight and clarified he was not encouraging him to return for the skylight.</p> <p>McLaughlin – No comments.</p> <p>Staff – If there is a front-plane skylight in the neighborhood with a stamped approved plan, there is precedent.</p> <p>Coombs – We should see the approval for the other front-plane skylight. East elevation, the mulled windows should be separated. (That's existing.)</p>			
Motion	Motion to Approve through staff without the skylight. (Welch)

31. Arashonkau Aliaksandr	9 Greglen Avenue	Hardscaping, retaining wall	68-190	Self
Voting	Coombs, McLaughlin, Camp, Watterson, Dutra			
Alternates	Welch			
Recused	None			
Documentation	Landscape design plans, site plan, and photos.			
Representing	Linda Williams – Presented project; most of this isn't visible; a corner of the wall was caught in the inspection. Aliaksandr Arashonkau, owner			
Public	None			
Concerns (7:34)	<p>Camp – If we okay this, it has to be screened.</p> <p>Dutra – Plant it with a hearty, deer-resistant evergreen.</p> <p>Coombs – Richmond has been in front of us for an 8-foot high wall; this must be screened.</p>			
Motion	Motion to Approve subject to any part of the wall not being visible at time of inspection and in perpetuity. (Camp)			
Vote	Carried 5-0	Certificate #	71835

Recused	Watterson			
Documentation	Architectural elevation plans, site plan, photos, historic documentation, and advisory board comments.			
Representing	TJ Watterson , Concept Design – Presented project; circa by 1834; he can save the chimney.			
Public	None			
Concerns (7:40)	<p>Coombs – Read HSAB comments: Contributing, age of rear ell and chimney; chimney needs to remain; south elevation 2nd-floor over fenestrated; additive massing; looks like a train hauler; wants it back.</p> <p>Camp – North elevation, the addition should be dropped another foot to show differentiation between old and new massing. East elevation, the three ganged windows should be separated and reduced to two windows. South elevation, the five sunroom windows are okay if they aren't visible. East elevation, the 2nd-floor “B” window should match the ones to the left; on the 1st-floor, would like a window to the right of the door.</p> <p>Dutra – Agrees about dropping the height down; it would look more additive. If the chimney can be saved, that would be great. Doesn't think the south elevation will be visible.</p> <p>McLaughlin – Nothing to add.</p> <p>Welch – No additional comments.</p> <p>Coombs – Doesn't know why HSAB wants it back; we're keeping the chimney and reducing the fenestration.</p>			
Motion	Motion to Hold for revisions. (Welch)			
Vote	Carried 5-0	Certificate #
