RE: Emergency Sewer Force Main Assessment

DATE: February 12, 2018

The Town's Emergency Contract to assess the 16-inch Sewer Force Main was awarded to Robert B. Our Co., Inc., 24 Great Western Road, PO Box 1539, Harwich, MA 02645. Per the contract requirements, the Contractor will need to construct force main access pits to enable cleaning and closed circuit television inspection (CCTV) of the pipeline. As a result of the proposed sewer force main assessment, the Contractor will be mobilizing and staging equipment and supplies throughout the 45-day contract.

Work under this sewer force main assessment will include access pit excavation and pipeline inspection within the right of way on: Sea St., South Beach St., Oak St., Union St., Hooper Farm Rd., Sherburne Commons, and Correia Ln. Pedestrians and motorists are cautioned to be mindful of the location of construction when traveling through the area.

While construction is in progress on your street, we are requesting that residents do not park their cars within 20 feet of a proposed access pit. Signage indicating the location of proposed access pits will be placed within the roadway by the Contractor prior to the commencement of construction.

Hours of construction will be twenty four (24) hours per day, seven (7) days per week. If you have questions regarding the construction, please feel free to contact Bob Fitzgerald (508) 776-7556, Environmental Partners Group Project Representative or Damon Burchill (774) 836-0993, Robert B. Our Co., Inc. Project Manager. Schedule updates pertaining to the Emergency Sewer Force Main Assessment project will be posted on the Town's website, www.nantucket-ma.gov.

We apologize in advance for any inconvenience to you during this much needed improvement. Thank you in advance for your cooperation in this matter.

David C. Gray SR.
