

Energy Code Technical Support

A FREE Webinar Training for the Nantucket Community:

2023 RESIDENTIAL STRETCH ENERGY CODE

a Continuing Education Training Course for Construction Supervisors Licensees, BPI,
AIA, and Massachusetts Code Officials.

Wednesday, February 8th @ 5:00-8:00pm

PRESENTED BY:

Bill Footer

Energy Efficiency Program Manager

FEATURING: Nantucket code officials and HERS Raters

CEU OFFERING:

This Nantucket-tailored webinar consists of three, 1-hour sessions approved for Massachusetts code officials, AIA, BPI, and CSL on the topic of "CODE REVIEW."

DESCRIPTION: The Massachusetts Stretch Energy Code was adopted by the Town of Nantucket in 2019. On January 1, 2023, new residential stretch energy code began, with no concurrency period. This presentation will highlight the salient changes to the base energy code, stretch code, and new residential opt-in stretch code.

Join members of the Nantucket Building Department and local HERS Raters community for a lively discussion on changes to compliance path options, new requirements for prescriptive path users, and changes to ERI and Passive House documentation requirements. EV-ready and solar-ready requirements will also be covered.
